NEWSLETTER NOVEMBER

The Park is at its final stages of redevelopment. Since May we have been very busy. We now have 5 new two bedroom cabins overlooking Cunningham Arm, new roads around the entire park, boundary fencing between the park and walking track, new power heads, new street lighting, a new office and residence, a new entrance, a second exit and a new dump point.

By the end of November we will see the Camp Kitchen, Games Room, TV Room, boom gates and fencing completed. The Pool should be completed early December. Here are some photos of the parks progress.
